This beautiful region is a natural wetland system spreading over some 1.6 million hectares of northern Botswana resulting from rivers that flow south from Angola, and dividing repeatedly

on the flat Botswana plains to form an intricate floodplain of channels and an inland 'delta', the only one of its kind in the world. After a slow drive along rugged windy tracks, we cross the 'Buffalo' fence exposing us to untamed Africa. Finding the water's edge we meet our local guides, familiar and trained in the region, we board their mokoro's (dugout canoes) and are gently 'poled' out onto the narrow flat waterway. Gliding over glistening ponds while weaving through the dense green bulrushes and beautiful wild lilies, we set up a bush camp under shade setting down for lunch. The afternoon is spent either on a bush walk with our local guides, viewing hippo from your mokoro or simply taking some restful time out. The evening is enjoyed around the campfire with a little entertainment from the local guides as they sing us traditional Tswana songs.

Satisfied, we glide over the still waterways returning to the polers' station where our 4x4 tracker awaits us and our polers bid us farewell. Crossing the buffalo fence back to civilization we enjoy the luxury of hot showers once again and have lunch. This afternoon feeling revitalized and refreshed we have the opportunity to join the guide for a trip into town and explore the shopping area and little market stalls scattered around the CBD. Another popular activity is a flight over the 'Delta' to get a bird's eye view of the vast wilderness you explored by boat and foot. When you see the vastness of the surroundings from the air you gain another appreciation of the beauty of the Okavango. We return to camp, enjoy a swim, and prepare a wholesome dinner ending the night under the stars with the distinct scent of wild sage in the air.

Day 13:

Maun – Khama Rhino Sanctuary – Serowe Hotel

Distance travelled: +/-530km

Approx driving time: Full day

An early rise and shine call followed with a satisfying breakfast, we leave Maun travelling through the greater Kalahari region via Mopipi, seeing vast salt pans in the distance. Although a very enjoyable and scenic route, Mopipi has a very small population and is known as the least visited place in Botswana. We arrive at the Khama Rhino Sanctuary in the early afternoon. In 1989 a group of locals wished to convert the Serowe Pan, previously a hunting area, into a conservation region for the rhino that inhabit the area. The 'Pan' was chosen because of its 'rhino-friendly' habitat and its proximity to a Botswana Defence Force base, which can provide 24 hour protection. Located on the edge of the vast Kalahari Desert, Khama is a prime habitat for white rhino, zebra, wildebeest and giraffe. Khama is a community based wildlife project which benefits the local community and teaches and educates the importance of conserving these animals. This afternoon we enjoy an open game drive with local rangers, taking in an abundance of interesting facts from rhino to fauna and flora. Our last night on safari, is spent at a nearby hotel, swapping stories and laughter with our last meal as a group.
